Job Vacancy [Logout](#)

The Future Studies and Placement Centre has prepared you some [Work Attitude Guidelines](#). Before you apply for a job, please take some time to read them. They are useful and handy for you.

In addition, please read the following “Advice to Part-time Job Seeker” and “Advice to Non-local Students” carefully.

Advice to Part-time Job Seeker: The first priority should be your studies. Don't get your priorities back to front. Working over 18 hours each week should be avoided in order not to affect your studies. University life is made up of studying, joining student activities, thinking about and planning your future, etc. Doing part-time jobs is far from being a significant part of it.

Advice to Non-local Students: In accordance with the article 2 of Macao's Executive Order No.17/2004, a non-Macao resident without holding any work permit or authorization of related activities and works for an entity with pay or even without pay, it will be considered as **illegal work**.
