

預防新型冠狀病毒感染 - 不同崗位工作人員的標準防護裝備指引
Prevention of Novel Coronavirus Infection –
Guidelines on Standard Protective Equipment for Workers of Different
Facets

The novel coronavirus is mainly transmitted through respiratory droplets and contact. In pursuant to the recommendation of the World Health Organization, **performing hand hygiene, respiratory etiquette and other personal hygienic measures are the essential measures to curb the spread of the disease.** Therefore, workers of different facets should adopt **corresponding personal protective equipment** to reduce the risk of disease transmission.
