*Follow us via IG or WeChat*

Wish you a success in the application process and looking forward to meeting you in PwC!

**PwC Campus Recruitment Team**

## About our Business

- **Core Assurance** - Audit and assurance service is the largest service line in PwC China and Hong Kong. Assurance service today isn't only about compliance or merely following rules. It's helping our clients to navigate regulatory complexity and strengthen trust and transparency. By providing a balanced, objective opinion on financial statements, we help build trust between companies/investment banks and their stakeholders, including investors. It requires us to go beyond the objectives and develop real judgment and insights into a client's markets, technology, people and management, as well as its finances, drawing on both technical knowledge and commercial experience.  
<https://www.pwccn.com/en/services/audit-and-assurance.html>
- **Risk Assurance** - Business today is increasingly complex - from the way organisations are managed and structured, through increasing integration with business partners and service providers, to the ever greater levels of reliance placed on underlying information systems and business processes. In addition, new regulations - domestic and international - are placing a greater emphasis on the effectiveness of internal controls, and this often requires independent assurance. You will provide value-added insights that help to improve system and business control effectiveness across various organisations.

- **Consulting** - Consulting aims to help the world's most significant organizations to address their most complex challenges that they need to deal with, and anticipate the social, mobile and human connectivity opportunities of the future. We provide total solutions including operation optimization, financial management, risk control, people and organization development and accelerate information system transformation. We combine creative vision and strategic insights to bring meaningful change to our clients. We focus on a complete solution from strategy through execution in different key areas.

- **Deals** - As a corporate or a private equity portfolio company, achieving transformational value through M&A is a challenging endeavour. We help clients to design and deliver value capture at the pre and post deal stage. Accelerating your integration process to ensure a smooth transition from start to finish. Edge, the three-year graduate programme under Deals for Asia Pacific featuring a blend of international development opportunities, rotations in at least three Deals business units, and online regular, professional and technical learning, providing the support you need to complete professional qualifications.  
<https://www.pwchk.com/en/services/deals-m-and-a.html>
- **Tax** - From advising on government policies, free trade zones, and legal services to multinational company entry strategies, Tax is far more than just taxes. You'll have access to a variety of professionals, helping high-profile businesses, entrepreneurs, public and private clients to balance competing priorities and resources to create high-performing businesses that set the pace for the industry.  
<https://www.pwccn.com/en/services/tax.html>
- **X-Venturer** - It is a two year programme where PwC X-Venturers will work on projects across multiple business units/lines of services. As we look in to further developing your leadership skills, relationship building skills and innovative mindset. After the programme you would have a clearer career pathway, stronger network and knowledge from the different teams to provide an innovative and holistic solution to our clients.  
<https://www.pwccn.com/en/careers/students/x-venturer.html>
- **New Ventures** - PwC is aiming to become the leading technology enabled professional services provider, and we are looking for new talent to join us on this exciting journey. As a part of this, we have formed PwC Ventures, our technology product development team. Our goal is to build start-ups that solve key business problems. We focus on rapidly ideating, incubating and commercialising product solutions that meet client needs. We are building a world-class team of talented, dynamic experts in emerging technology and start up incubation, who take ideas from initial concepts to become fully functioning businesses. This is an exciting, fast paced business with a unique advantage - our ability to leverage PwC's global network of experts and their deep business insights.  
<https://www.pwchk.com/en/services/new-ventures.html>

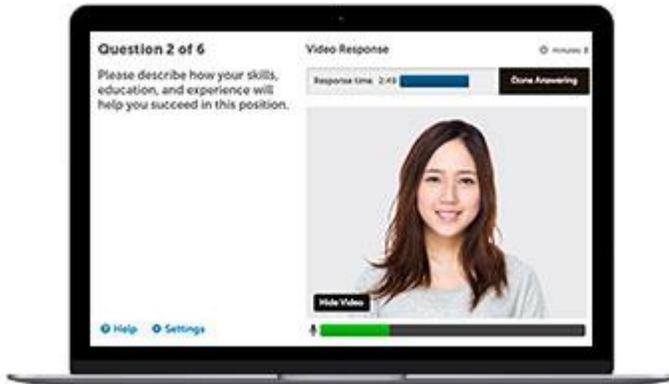

Other than the above, **Actuarial Services, Integrated Urban Services** and **Global Technology Solutions** also hire graduates for the coming year.

## Application Journey

### Game-based Assessment (7 Aug ~ 13 Oct)

You will receive the invitation for the Game-based assessment (GBA) after submitting the online application. Please be reminded to complete it within 48 hours and you can access it using your mobile device. Do read the invitation email for more detailed instructions.

### Video Interview (Sept ~ Oct)

Shortlisted students from GBA will receive another invitation to do the Video Interview. Please complete it within 48 hours with either your mobile device or laptop. Do read the invitation email for more detailed instructions.

\*Only applicable to candidates applying the Graduate programme

### Superday (Oct ~ Nov)

Candidates who successfully passed both the online assessments will be invited to attend our on-site Superday. Campus recruitment team will reach out via phone call and you will receive the confirmation email from campus.cnhk@cn.pwc.com.

Superday will be a half-day assessment and please bring all the required documents as stated in the email.

Tips for Superday: Be yourself, relax and be punctual!
